# BEAUTIFUL PROTECTION MOSQUITOES CAN'T RESIST

- ✓ Attractive Stainless Steel Construction
- ✓ Energy Efficient UV-LED Lights
- ✓ Whisper-quiet – No Zapping Noises
- ✓ Easy Change ATRAKTA™ Pods

Tungsten

Antique  
Copper

Sterling  
Mist

ATRAKTA™

The elegantly designed DT600 offers up to one-quarter acre of effective protection in a convenient compact size.

Mosquitoes, Midges, and No-See-Ums are lured to the trap using a unique combination of ultra efficient UV-LED light and the irresistible scents from the ATRAKTA™ pod. The whisper quiet vacuum fan then draws insects into the retaining cage where they dehydrate and die. Best of all the DynaTrap® DT600 operates economically (less than \$.03 of electricity per day) and is easy to set up.

The durable Stainless Steel construction is fully protected from corrosion to assure it remains a beautiful addition to your landscape for years.

ATRAKTA™ pods lure Mosquitoes, Midges, and No-See-Ums using special scents they can't resist! (NonToxic Food Grade Ingredients - Lasts 16 Days.)

*MosquitoRelief  
is on the way!*

## FEATURES

- Attractive Stainless Steel Construction
  - Energy Efficient UV-LED Lights (40,000 Hours)
  - Easy To Replace Pods (16 Days)
  - Simple To Operate
  - 24/7 Round The Clock Protection
  - 1/4 Acre Coverage
  - Whisper Quiet Fan
  - 1 Year Warranty
  - Easy To Hang or Stand
  - For Outdoor Use Only
- See reverse side for more information.

## FITS ALMOST ANYWHERE

The DT600 is compact and portable for ease of use and can be placed just about anywhere for efficient protection whenever needed.

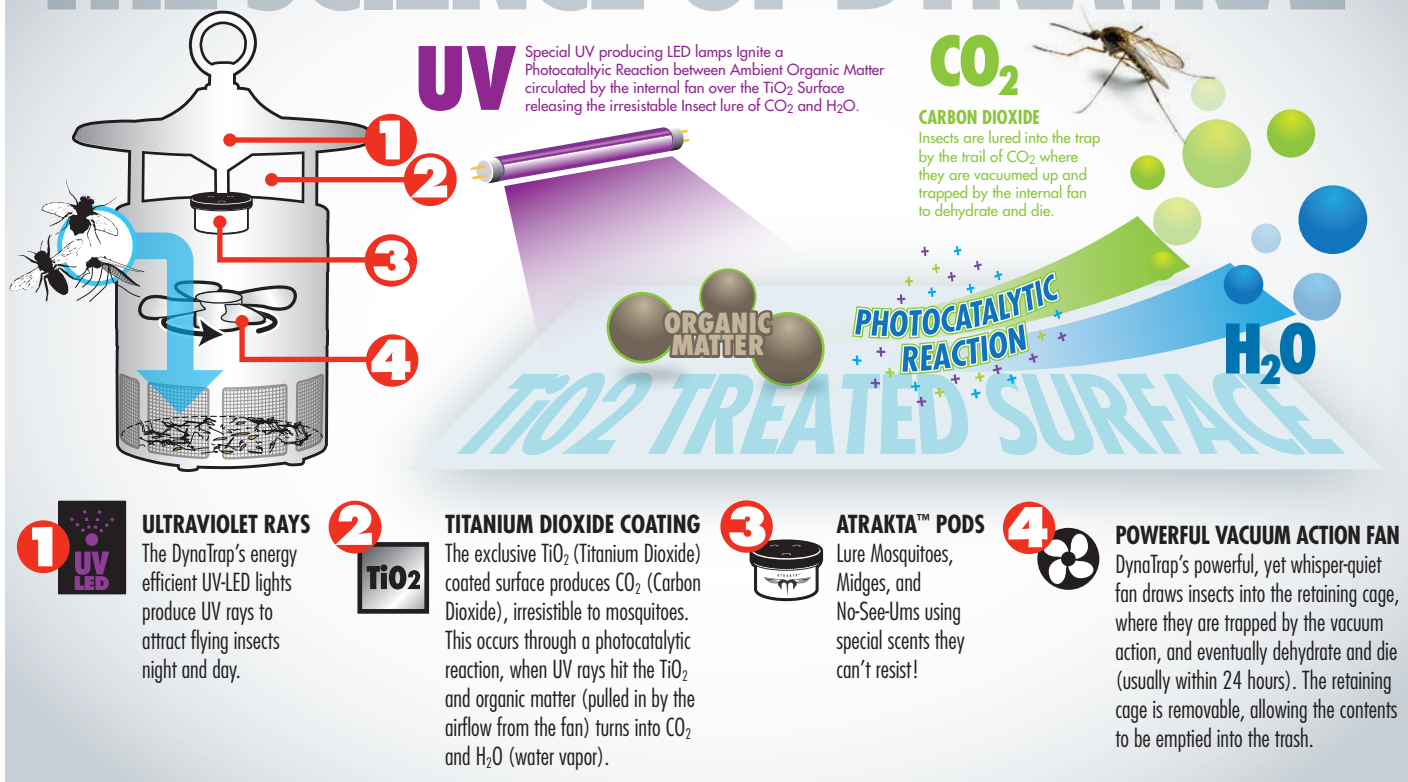

**Our Customers Say It Best...** "Our DynaTrap has changed our lives. We are now able to be outside without getting eaten up by the mosquitoes." - Daria B., Edgewater, FL

Attract, trap and kill flying insects including mosquitoes, midges, and no-see-ums!

# MOSQUITO PROTECTION WITH A TWIST

- ✓ No Pesticides/Odor-Free
- ✓ Durable All-Weather Construction
- ✓ Light-weight and easy to set up
- ✓ Indoor/Outdoor

*Mosquito Relief is on the way!*

The DynaTrap® DT1050 operates economically and is easy to set-up. It traps insects without chemicals being added to the environment or the surrounding area.

Our award winning DynaTrap® technology uses a 3-way protection plan for insect extermination. A powerful UV emitting fluorescent bulb produces warm and bright light that attracts insects to the unit. The DynaTrap® also produces carbon dioxide, which is irresistible to mosquitos. After Insects and mosquitos are lured to the trap, the powerful fan draws them into the retaining cage where they dehydrate and die.

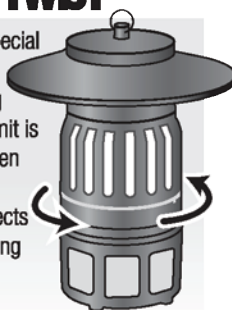

## FEATURES

- Indoor/outdoor
- No expensive attractant or propane necessary
- Smokeless – pesticide and odor free
- Operate 24 hours a day, 7 days a week
- Twist on/off feature prevents insects from escaping when cleaning
- Provides up to ½ acre coverage
- Easy to set up & whisper-quiet
- Durable all weather construction
- 1 year warranty
- Includes: UV bulb - approx. 3,000 hours (4 months), cleaning brush, metal chain for hanging, 10 ft. cord (110 VAC)

See reverse side for more information.

## AN ADDED TWIST

The DT1050 has a special feature that prevents insects from escaping when cleaning. The unit is completely sealed when the fan is turned off, ensuring that any insects still alive in the retaining cage cannot fly away.

## Our Customers Say It Best...

"Works wonderfully and let's us enjoy sitting outside without covering ourselves in toxic bugspray! We love our DynaTrap!" Brad M., Germantown, TN

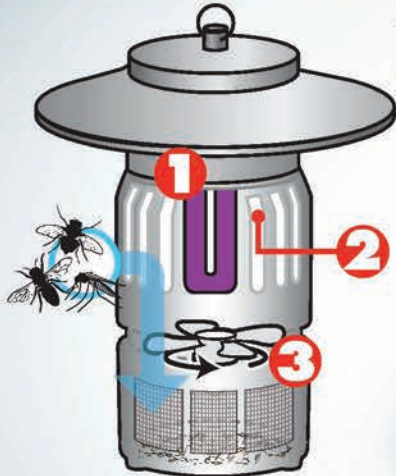

Attract, trap and kill flying insects including mosquitos, biting flies, Asian beetles, wasps, hornets, yellow jackets, moths, stink bugs, no-see-ums and more!

# THE SCIENCE OF DYNATRAPH

**1** **ULTRAVIOLET RAYS**  
The DynaTrap's special UV bulb generates warmth and UV rays, attracting flying insects night and day.

**UV** Special UV producing light bulbs ignite a Photocatalytic Reaction between Ambient Organic Matter circulated by the internal fan over the TiO<sub>2</sub> Surface releasing the irresistible Insect lure of CO<sub>2</sub> and H<sub>2</sub>O.

**2** **TITANIUM DIOXIDE COATING**  
The exclusive TiO<sub>2</sub> (Titanium Dioxide) coated surface produces CO<sub>2</sub> (Carbon Dioxide), irresistible to mosquitos. This occurs through a photocatalytic reaction, when UV rays hit the TiO<sub>2</sub> and organic matter (pulled in by the airflow from the fan) turns into CO<sub>2</sub> and H<sub>2</sub>O (water vapor).

**CO<sub>2</sub>**  
**CARBON DIOXIDE**  
Insects are lured into the trap by the trail of CO<sub>2</sub> where they are vacuumed up and trapped by the internal fan to dehydrate and die.

**3** **POWERFUL VACUUM ACTION FAN**  
DynaTrap's powerful, yet whisper-quiet fan draws insects into the retaining cage, where they are trapped by the vacuum action, and eventually dehydrate and die (usually within 24 hours). The retaining cage is removable, allowing the contents to be emptied into the trash.

**PHOTOCATALYTIC REACTION**

**ORGANIC MATTER**

**H<sub>2</sub>O**

**TiO<sub>2</sub> TREATED SURFACE**

- ✓ Light-weight and easy to set up
- ✓ Indoor/Outdoor

The DynaTrap® operates economically and is easy to set-up. It traps insects without chemicals being added to the environment or the surrounding area.

Our award winning DynaTrap® technology uses a 3-way protection plan for insect extermination. A powerful UV emitting fluorescent bulb produces warm and bright light that attracts insects to the unit. The DynaTrap® also produces carbon dioxide, which is irresistible to mosquitoes. After Insects and mosquitoes are lured to the trap, the powerful fan draws them into the retaining cage where they dehydrate and die.

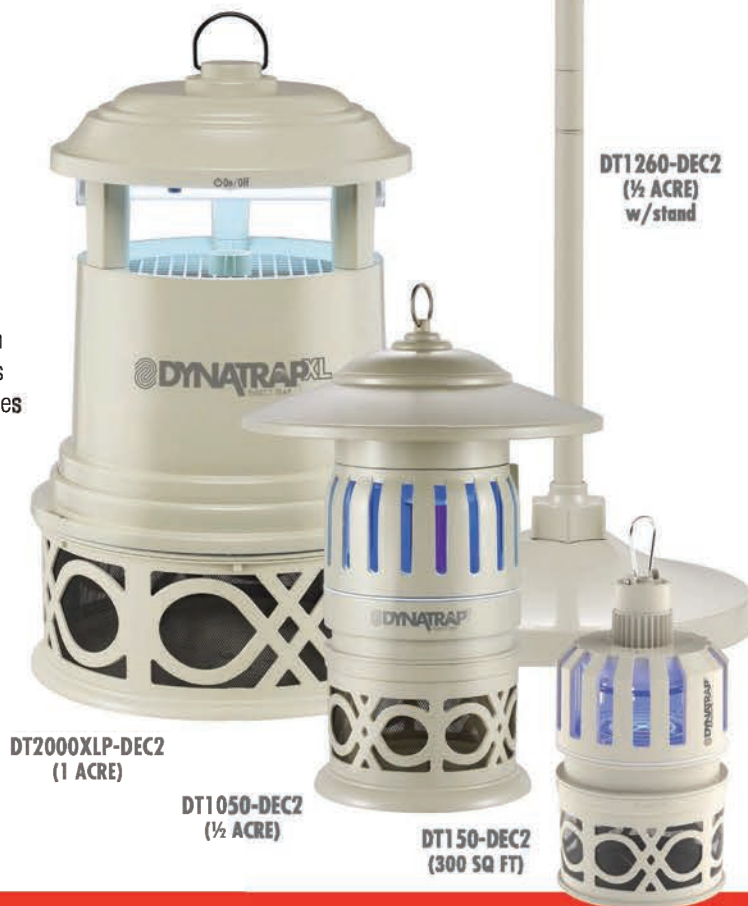

## FEATURES

- Indoor/Outdoor
- No expensive attractant or propane necessary
- Smokeless – pesticide and odor free
- Operate 24 hours a day, 7 days a week
- Provides up to 1 acre coverage
- Easy to set up & whisper-quiet
- Durable all weather construction

- 1 year warranty
- Includes: UV bulb - approx. 3,000 hours (4 months), cleaning brush, 10 ft. cord (110 VAC)
- DT150-TUN - INDOOR
- UV bulb - approx. 20,000 hours (2.25 years), and 6 ft. cord (120 V-240V)

See reverse side for more information.

## Our Customers Say It Best...

*"There is definately a decrease of flying insects in my backyard. My neighbor is enjoying the full protection of his yard too." Michael K., Virginia Beach, VA*

Attract, trap and kill flying insects including mosquitos, biting flies, Asian beetles, wasps, hornets, yellow jackets, moths, stink bugs, no-see-ums and more!

# THE SCIENCE OF DYNATRAP

**1** **ULTRAVIOLET RAYS**  
The Dynatrap's special UV bulb generates warmth and UV rays, attracting flying insects night and day.

**UV** Special UV producing light bulbs ignite a Photocatalytic Reaction between Ambient Organic Matter circulated by the internal fan over the TiO<sub>2</sub> Surface releasing the irresistible Insect lure of CO<sub>2</sub> and H<sub>2</sub>O.

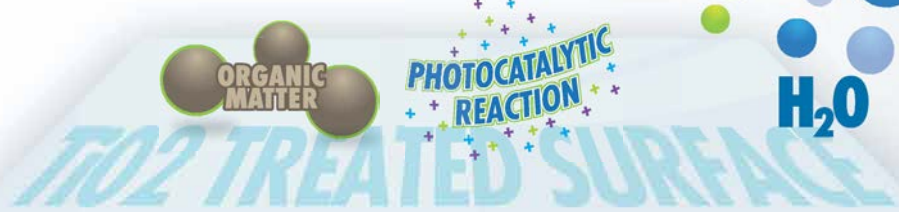

**2** **TITANIUM DIOXIDE COATING**  
The exclusive TiO<sub>2</sub> (Titanium Dioxide) coated surface produces CO<sub>2</sub> (Carbon Dioxide), irresistible to mosquitoes. This occurs through a photocatalytic reaction, when UV rays hit the TiO<sub>2</sub> and organic matter (pulled in by the airflow from the fan) turns into CO<sub>2</sub> and H<sub>2</sub>O (water vapor).

**CO<sub>2</sub>**  
**CARBON DIOXIDE**  
Insects are lured into the trap by the trail of CO<sub>2</sub> where they are vacuumed up and trapped by the internal fan to dehydrate and die.

**3** **POWERFUL VACUUM ACTION FAN**  
Dynatrap's powerful, yet whisper-quiet fan draws insects into the retaining cage, where they are trapped by the vacuum action, and eventually dehydrate and die (usually within 24 hours). The retaining cage is removable, allowing the contents to be emptied into the trash.

**PHOTOCATALYTIC REACTION**

# FIGHT INDOOR INSECTS SAFELY AND EFFECTIVELY

- ✓ No Pesticides/Odor-Free
- ✓ Lightweight and Easy To Set Up
- ✓ No Assembly Required
- ✓ Indoor Use Only

The DynaTrap® DT250IN provides effective protection from mosquitos and other flying insects in a compact, portable size.

Our award winning DynaTrap® technology uses a 3-way protection plan for insect extermination. The UV emitting fluorescent bulb produces a warm light that attracts insects to the unit. The DynaTrap® also produces carbon dioxide, which is irresistible to mosquitos. After Insects and mosquitos are lured to the trap, the powerful fan draws them into the retaining cage where they dehydrate and die.

## AN ADDED TWIST

The DT250IN has a special feature that prevents insects from escaping when cleaning. The unit is completely sealed when the fan is turned off, ensuring that any insects still alive in the retaining cage cannot fly away.

*Mosquito Relief  
is on the way!*

# DISCREET OUTLET TRAP

- ✓ No Pesticides/Odor-Free
- ✓ Rotating Plug – easily fits any outlet
- ✓ StickyTech™ Glue Cards coordinate with any decor
- ✓ Safe, Silent, Simple.™ - Indoor Use Only

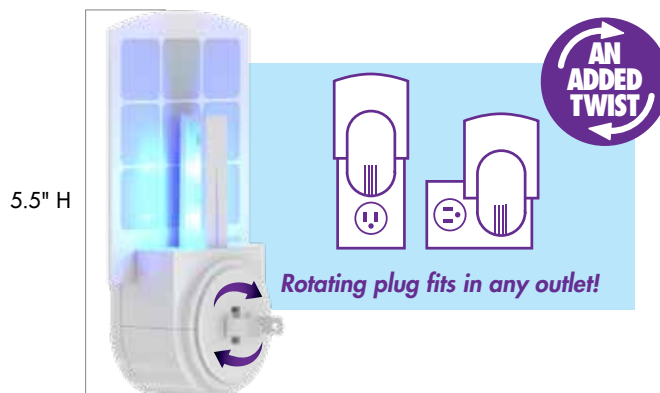

The DynaTrap® DOT is our most compact indoor pest control solution yet! Equipped with two LED and two UV-LED lights, the DynaTrap® DOT is specifically designed to attract a variety of household insects including Fruit Flies, House Flies, Moths, Gnats, and much more. Insects drawn to the trap will be captured on the back of the attractive StickyTech™ Glue Card, where they are concealed from sight. Simply remove and replace the StickyTech™ Glue Card after it is covered with insects to keep trappin'!

## FEATURES

- LED Lights rated for appx. 20,000 hours of continuous operation.
- Includes one, replaceable StickyTech™ Glue Card. Replace every 21-30 days.
- No Pesticides, Odor-free.
- Easy installation, just plug it in!
- Provides up to 400 sq ft of coverage.
- 1-year warranty

See reverse side for more information.

**400 sq ft  
COVERAGE**

**Our Customers Say It Best...** "I can't say enough about this product! If you have flies or fruit flies, get this! It really works!" Jacob, Omaha, NE

Attract, trap and kill flying insects including mosquitos, biting flies, Asian beetles, wasps, hornets, yellow jackets, moths, stink bugs, no-see-ums and more!

### STICKYTECH™ GLUE CARDS

Easy to change, replace every 21-30 days.

### LONG-LASTING UV-LED LIGHTS

The combination of 2 UV-LED lights and 2 LED lights provide long lasting light, at the appropriate wavelength, to attract insects night and day.

### ROTATING OUTLET

Fits every outlet, horizontal or vertical, with the rotating outlet.

# A DYNAMIC SOLUTION TO THE OLD FLY SWATTER

- ✓ Extendable Up To 3 Feet
- ✓ Flexible Head Bends In Multiple Directions
- ✓ Great For Hard-To-Reach Areas Like Walls & Ceilings
- ✓ No Smudge or Smear Left Behind
- ✓ Safe For Indoor/Outdoor Use

## A Must Have In Every Home!

The DynaZap™ kills mosquitos, wasps, spiders, hornets, yellow jackets and other annoying flying and crawling insects on contact without leaving behind a smudge or smear to clean up. It is fully extendable up to 3 feet in length, and has a telescopic head that bends in multiple directions for hard-to-reach areas. It also folds compactly, making it ideal for camping and other outdoor activities. Two AA batteries are provided.

See reverse side for more information.

*Our Customers Say It Best... "Anyone who declares war on flying insects will thoroughly enjoy this product."*

## EXTENDABLE AND FLEXIBLE

### DYNAZAP FEATURES

- Kills insects on contact
- Safety switch: activates only when button is pushed "ON"
- Handle extends up to 3 feet
- Lightweight and easy to use
- Attached lanyard for easy storage
- Runs on two "AA" batteries
