The Safer® Brand Philosophy

WE'VE GOT A HISTORY.

For more than 30 years, gardeners have depended on Safer® Brand pest control products. Our products solve problems fast, yet they're safe to use around people and pets when used as directed. That's why they've been approved for certified organic farms and gardens by the Organic Materials Review Institute (the independent watchdog the USDA relies on).

WE STAND WITH NATURE.

Our products are made with real ingredients, like oils from seeds and soap. Our products cater to everyone from master gardeners to urban gardening renegades, to first-timers. Best of all, our products work in harmony with nature—not against it—so your crop hits its max potential and your harvest is as pure as can be.

WE'RE THE RESOURCE YOU CAN TRUST.

Safer® Brand's sturdy foundation is built on our proven track record for helping gardeners succeed. Whether your garden is just a few pots with soil or an elaborate hydroponic system, we're here to support you, from planting your first seed to your best-ever harvest.

For Organic Use

What is OMRI?

The Organic Materials Review Institute (OMRI) is an independent board of organic experts who use a comprehensive review process to safeguard organic integrity. If a product is OMRI Listed, it may be used as an input material in organic production.

Being listed as OMRI is the result of meticulous production, careful formulation, and consistent monitoring of the organic landscape.

If it isn't , you can't be certain...

The text "If it isn't" is followed by the OMRI LISTED logo, which consists of the text "OMRI" in a large, bold, sans-serif font, with "LISTED" in a smaller, bold, sans-serif font directly below it. The text is contained within a rounded rectangular border. Above the "OMRI" text, there is a stylized leafy branch. A registered trademark symbol (®) is located to the upper right of the logo. Below the logo, the text "For Organic Use" is written in a small, sans-serif font.

Insect Control

Sprays • Concentrates

Few things can ruin a blooming garden faster than an unexpected insect invasion or a fast-spreading fungus. Protect your garden with our complete line of insect and fungus control products, most of which are OMRI Listed® and approved for use in organic gardening.

Insect Killing Soap

Safer® Brand Insect Killing Soap with Seaweed Extract is a special formulation of insecticidal soap that kills insects while being gentle on plants. It utilizes potassium salts of fatty acids to weaken the insect's waxy protective outer shell, causing them to dehydrate and die.

- Kills aphids, earwigs, mealy bugs, mites, whiteflies, and other listed insects
- For use on flowers, fruits, vegetables, houseplants, trees, shrubs, and ornamentals
- Can be used up until the day of harvest
- OMRI Listed® and compliant for use in organic gardening
- Available in:

Pyrethrin & Insecticidal Soap

Safer® Brand Pyrethrin & Insecticidal Soap Insect Killers use the power of two to kill a variety of insects on contact. The pyrethrins attack the insect's nervous system and the potassium salts of fatty acids weaken the insect's protective outer shell causing them to dehydrate and die. Keep garden pests away so your plants can thrive!

- Kills aphids, beetles, caterpillars, leafhoppers, tomato hornworm, and other listed insects
- For use on flowers, vegetables, beans, shrubs, and ornamentals
- Can be used up until the day of harvest
- OMRI Listed® and compliant for use in organic gardening

Caterpillar Killer

Safer® Brand Caterpillar Killer utilizes B.t. Kurstaki (*Bacillus thuringiensis*) to eliminate caterpillars and worms on your garden plants. After ingesting the treated portion of the leaf, caterpillars stop feeding within hours and die of malnutrition in days. Protect your most precious plants from destructive caterpillars and worms for good!

- Kills a variety of caterpillars, and worms
- For use on flowers, fruits, vegetables, lawns, and ornamentals
- Can be used up until the day of harvest
- OMRI Listed® and compliant for use in organic gardening
- Available in:

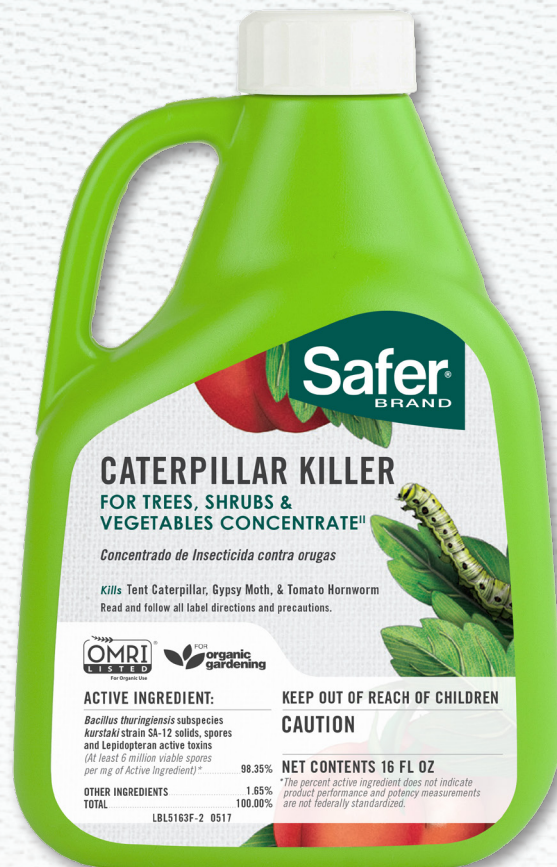

16 fl oz

Slug & Snail Killer

Safer® Brand Slug & Snail Killer boasts a non-toxic mode of action and can be used in areas where pet and wildlife protection is a concern. When snails & slugs ingest the bait, they stop feeding and crawl back to their shelter where they eventually die. The bait remains effective under varying weather and environmental extremes.

- Stops slugs and snails from feeding
- Treats 3,400 sq ft per 2 lb bag
- Can be used around pets and wildlife
- Kills slugs and snails
- Remains effective under varying weather and environmental extremes

Home Insect Control Traps

Whether inside the home or outside in the backyard, insect infestations can be a big problem. Many homeowners know that when they find one insect, they're bound to find many more hiding. We offer a variety of insect control solutions for around the home. With Safer® Brand, you can eliminate annoying and destructive insect populations for good!

Moth Traps

Safer® Brand Moth Traps lure in moths with a patented pheromone lure to protect your home. Clothes moth larvae feed on the fabric in clothing and furniture, leaving unreparable holes. Other moths eat grains and cereals in pantries, ruining food. Break the moth breeding cycle with our moth traps!

- Clothes Moth Alert protects clothing and furniture from costly clothes moth damage
- Pantry Pest® attracts male grain moths, flour moths, meal moths, and seed moths
- Traps moths to stop the breeding cycle
- Attracts adult moths with a patented pheromone lure

SKU:	Name:	Case Qty:
07270	Clothes Moth Alert Trap	12/case
05140	The Pantry Pest® Trap	12/case

Each Selling Unit Contains:

- 2 traps
- 2 patented pheromone lures

05140

07270

Sticky Traps

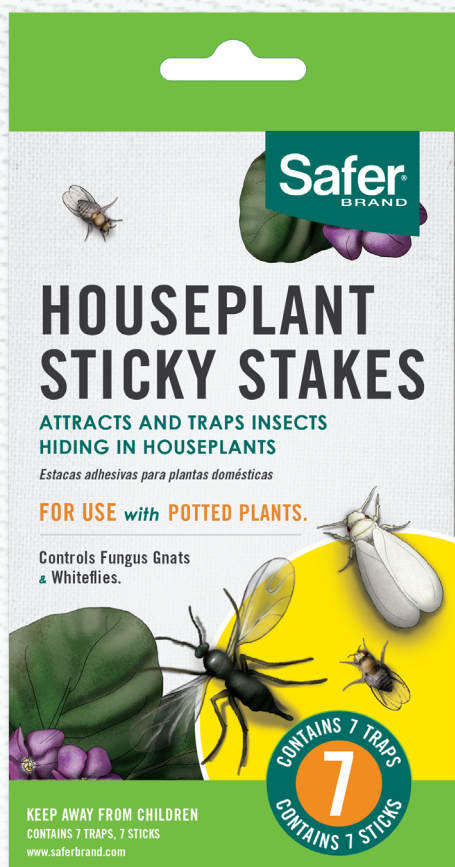

Safer® Brand Sticky Traps attract and trap flying insects where they spend most of their time - near your houseplants. Certain flying insects, like whiteflies, are attracted to yellow, so our traps draw them in like a magnet. Position traps in or above houseplants to start eliminating unwanted flying insects!

- Attracts and traps whiteflies, gnats, aphids, thrips, fruit flies, and other flying insects
- Place in or above houseplants
- Fully disposable
- Bright yellow color draws pests like a magnet with no harmful chemicals

SKU: 5026 **Name:** Houseplant Sticky Stakes **Case Qty:** 12/case

Each Selling Unit Contains:

- 5026 - 7 stakes

5026

Yellow Jacket Trap

The Safer® Brand Deluxe Yellow Jacket/Wasp™ Trap lures yellow jackets inside the trap using a pesticide-free food attractant. Once inside, yellow jackets cannot escape, causing them to die. This reusable trap is an economical and convenient solution to the threatening presence of yellow jackets and wasps near your home.

- Attracts and traps yellow jackets and wasps
- Highly attractive food based bait lures in yellow jackets
- Reusable and easy to clean
- Fully assembled and ready-to-use

Diatomaceous Earth

Diatomaceous Earth (DE) is made from Diatomites, which are rough, porous fossilized mineral deposits formed near dried up water. The mineral is a result of dead single-celled algae called diatoms usually found in marine sediments. In the United States, DE is mined and processed in dry riverbeds in California, Nevada, Oregon and Washington. However, diatomite deposits can be found all over the world. At the processing plant, the diatomites are crushed, dried, and milled to create food grade diatomaceous earth.

Food-Grade Diatomaceous Earth

Safer® Brand Food Grade Diatomaceous Earth is a natural anti-caking agent designed to be used as an animal feed additive. The formula aids in better flow and mixability of animal feed without added chemicals. When used as directed, this product causes no harm to animals.

- Animal feed additive used to prevent caking and increase mixability
- Composed of ground freshwater diatomaceous earth, made in the USA
- Natural – no chemicals added
- OMRI® Listed and compliant for organic use
- Not for pesticidal use
- Available in:

Active Ingredients:

100% Food-Grade Diatomaceous Earth

SKU:	Size:	Case Qty:

Pesticidal Diatomaceous Earth

Safer® Brand Diatomaceous Earth is composed of D.E. to effectively kill a variety of crawling insects. Insects die within 48 hours of ingesting or crossing through the dust. D.E. feels powdery soft to humans, but is razor sharp to an insect's delicate exoskeleton. With no odor and non-staining properties, it's so simple to use!

- Consists of Diatomaceous Earth
- Kills bed bugs, fleas, ants, roaches, earwigs, silverfish, and other crawling insects
- Dual action - kills by ingestion and contact
- Insects die within 48 hours of contacting dust
- Effective outdoors too, but reapply after rain or watering
- No odor and non-staining
- Available in:

4 lb

Dual-Action Control

Crawling Insect Killer

Safer® Brand Crawling Insect Killer is made from Diatomaceous Earth to kill insects within 48 hours. Once insects ingest or cross through the dust, it cuts their delicate exoskeleton causing them to dehydrate and die. The built-in pouring spout on the unique puffer bottle makes using this powder precise and consistent.

- Kills bed bugs, fleas, ants, roaches, earwigs, silverfish, and other crawling insects
- Dual action - kills by ingestion and contact
- Insects die within 48 hours of contacting dust
- Effective outdoors too, but reapply after rain or watering
- No odor and non-staining
- Puffer bottle for easy and precise application
- Made from Diatomaceous Earth
- Available in:

Lawn & Garden Care

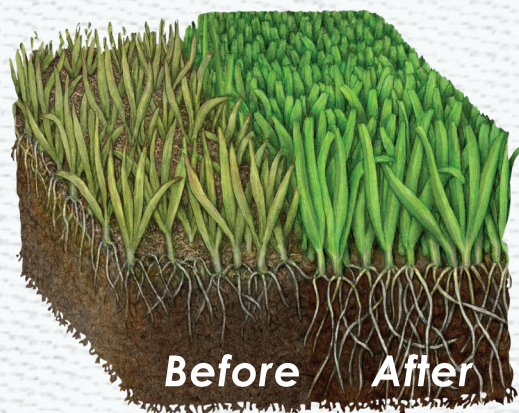

You don't have to use synthetic chemicals to have a perfect lawn and garden. Safer® Brand offers a variety of quality products for lawn fertilizing and weed prevention so you can create a lush, healthy turf the natural way. We also offer specialty fertilizers so you can grow beautiful, healthy flowering plants, tomatoes and vegetables. We care about the earth and strive to offer products that eliminate weeds and feed your lawn and garden without the use of harmful synthetic chemicals.

Lawn Restore® Fertilizer

Safer® Brand Lawn Restore® Fertilizer is the answer to lawn revitalization and rejuvenation issues. Each bag contains up to 5,000 sq ft of coverage and provides all of the nutrients your lawn needs to revitalize to a thick turf in just one product. When used as directed, Lawn Restore® Fertilizer is safe for children and pets immediately after application.

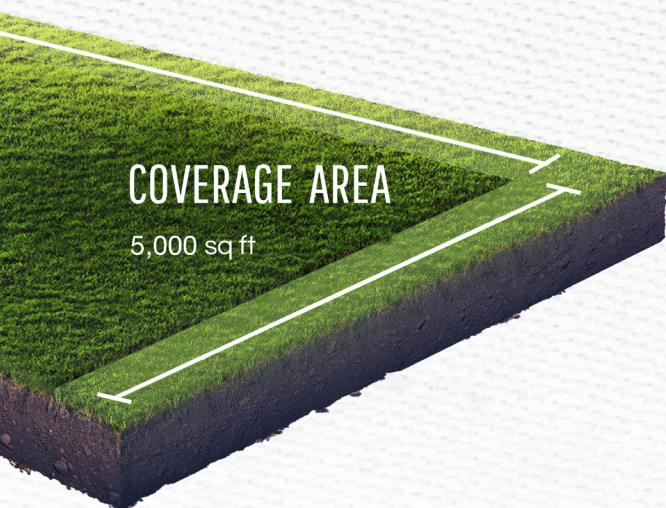

- Easy, one product application for all 4 seasons
- Lawns will green up within 3 to 5 days with the non-burning and long-lasting formula
- Promote strong root system for thicker lawn
- Effective year-round by helping plants withstand heat, cold and drought stresses
- Safe for children and pets when used as directed

Repellents

Safer® Brand offers a variety of animal repellent products to keep your lawn and garden safe from nuisance animals. We use ingredients that aggravate the taste and scent senses, causing the animals to be uncomfortable in the treated area. Use Safer® Brand repellents to keep your outdoor spaces critter free!

Animal Repellent Granules

Critter Ridder® Animal Repellent Granules protect your lawn and flowerbeds from wildlife and stray pets. This treatment harmlessly repels animals from your yard in two ways: by smell and taste. Thanks to its highly potent ingredients, Critter Ridder® is fast acting, and animals quickly learn to avoid the area.

- Repels skunks, groundhogs, dogs, cats, squirrels, chipmunks & raccoons
- Each application lasts up to 30 days
- Treats up to 120 sq ft
- Dual deterrent system: repels by scent & taste
- Apply with lawn spreader or by hand
- Available in:
