The Leader in Wild Bird Feeding

Innovators of Quality Birding Products to Bring More Joy into the Backyard

Classic Brands has a dedicated team passionate about birds and our customers. We are focused on developing innovative, quality products that are better for the birds and better for you. We embrace learning more about what our customers desire – whether our songbird customer or our friends feeding birds in their backyard.

We continue to conduct research across North America to better understand what birders want in a bird feeder or accessory product. We have incorporated into every product unique features to make bird feeding easy and fun for people of all ages.

Our products are designed with the bird's needs in mind too. With our team of experts, we design all **Classic Brands** products in the USA and field-test to ensure a fun and successful bird feeding experience for all.

Our innovative products coupled with our exciting branding strategy and comprehensive merchandising solutions makes **Classic Brands** your one source for all your birding needs.

All feeder capacities are based on mixed seed or Nyjer® seed.

Company Pillars

We Listen

We listen to our customer's needs to provide them with the best feeders to suit their consumers and drive their business. We use both customer feedback and consumer research to design and provide the most comprehensive product assortment on the market.

We Innovate

Our products are highly creative and solve our consumer's problems.

Holistic View

Our approach is all encompassing: We provide a stellar experience for our customers and consumers by creating a coherent shopping experience with easy to use and clean products that the consumer will love. We view the merchandising and shopping experience to be as important as the user experience and the feeding experience for the birds. By providing knowledge and education as well, we become a one stop shop for the industry.

We Are Passionate

We care deeply about our customers, our consumers, and the birds that we feed. We continually push ourselves to make the best products available.

Customer Promise

We will grow the wild bird category and help you make your birding business a high growth department, year over year, by bringing the voice of your customer to our product offering and merchandising solutions.

Consumer Promise

From your experience in store, to your backyard, we promise to make bird feeding easier and a more rewarding encounter with nature.

Merchandising Solutions and Tools

The products of **Classic Brands** are backed by a comprehensive merchandising display system and educational signage designed to fit your store's needs. With free-standing floor displays to planogram assortments, we strive to provide you with additional tools for merchandising product and increasing sales in your Wild Bird Department. We continue to develop new, innovative products and tools for you to expand within your store. We also have the capabilities to design and manufacture custom fixtures to fit your store needs.

BIRD HEALTH+ NECTAR

Our nectar products are formulated to resemble flower nectar, making them a natural choice for attracting hummingbirds and orioles to your feeder.

Great Features & Benefits:

- Researched and tested flavorings to create the best nectar on the market
- Attractive bright-colored packaging helps to identify between hummingbird and oriole products
- Appeals to a wide range of hummingbirds and orioles
- Added vitamins and calcium for better egg hatching. Female hummingbirds need a diet rich in both Vitamin D and Calcium. Without sufficient amounts of Vitamin D, they can't absorb Calcium. Without Calcium, female hummingbirds produce eggs with thin shells, leading to increased mortality among baby hummers.
- Red nectar is naturally dyed with carmine. Orange nectar is naturally dyed with beta-carotene. Grape nectar is naturally dyed with grape skins.

Three Convenient Formulas:

Powdered

8 ounce powder makes up to 40 ounces of nectar. 2 pound powder makes up to 160 ounces of nectar. Just add water, no boiling.

Concentrate

32 fluid ounces makes up to 128 ounces. Just add water, no boiling.

Ready-to-Use

64 fluid ounces of ready to use nectar. Pour directly into feeder.

Hummingbird Feeders

Orion Hummingbird Feeder

Elegant and innovative feeder designs set More Birds® hummingbird and oriole feeders apart from any other. Our feeders have been carefully designed and tested for daily use and attraction of hummingbirds and orioles.

*Rufous Hummingbird
with Orion (#406)*

Great Features:

- Wide mouth bottles are easy to fill. Most have flat bottoms to easily sit on flat surfaces.
- Each feeder base comes apart and has wide openings for easy cleaning.
- Our feeders have more feeding ports and built in perches. Several have built in ant moats.
- S-hook included with most feeders to hang from your More Birds® 42" Hook (#38021) or similar tree hook.
- Seals snug to avoid messy dripping.

More Birds® Oriole Feeders

A black and orange bird, possibly a Towhee, is perched on a yellow hummingbird feeder. The feeder has a metal hook for hanging. The bird is facing right, and its shadow is cast on the feeder. The background is white.

6 17313 38125 4

A tall, ornate glass vase with a metal frame and a decorative base. The vase is made of clear glass and features a large, intricate, circular embossed design in the center. It is held by a dark metal frame with a curved top handle. The base is a dark, circular platform with four curved legs and four small, orange, circular decorative elements.

A clear glass carafe with a wide, flared base and a narrow neck. It has a bright orange plastic lid with a black handle. The base is also orange and features a circular decorative element. A black cord is attached to the base.

A tall, orange, faceted glass bottle with a metal handle and a decorative base featuring orange flowers and a metal frame.

Your Best Defense Against Squirrels

Our **Squirrel-X™** line offers a variety of squirrel resistant feeders to fit any backyard needs

#151

House Finch
with Squirrel-MX5 (#151)

Squirrel-Resistant Feeders

Squirrel-MX5, X5 & X6

Our **Squirrel-X™** feeders offer maximum squirrel-resistance with all-metal construction, weight-activated port closures and adjustable tension to even keep out large birds such as doves and grackles.

Great Features:

- Four to six ports allow many birds to feed at once.
- Simply push down and twist the lid counter-clockwise to open and fill.
- X5 & X6 can be easily tightened or loosened according to the critters' weight to keep them from reaching seed. Adjust without opening feeder or disassembling.
- Integrated metal perches are spring-loaded to close all ports with the weight of squirrels or large birds.
- Tall design hinders squirrels from reaching the seed ports from the roof.
- Feeders come apart in three sections for thorough cleaning.
